Olatunji Peter Olalekan

Software Engineer

polalekan526@gmail.com

Nigeria (UTC + 1)
Mobile: **+(234) 810-434-3582**

Experienced and dedicated Software Engineer skilled in creating exceptional web applications. Proficient in React and component-based development. Passionate about building beautiful, intuitive, and high-performance apps. Problem-solving mindset with a strong focus on quality and results. Seeking a software engineer position to contribute to a diverse team and help achieve company goals.

EXPERIENCE

Dignity Technology, Nigeria - *Software Engineer.*

JULY 2022 - AUGUST 2022

- Developed and implementation of a NoteApp(MyNoteApp) built plainly with Javascript (https://tsktrac.netlify.app/).
- Maintained and contributed to consignors and retail web applications.
- Worked with teammates to implement new UI flows, ensuring product quality and usability.
- I work with my manager to direct my focus so my work advances my team's goals.
- I think a step or two ahead in my work, solve the correct problems before they become bigger problems, and problem-solve with my manager when I'm stuck.
- Automated different processes, especially when it comes to automated CMS workflows.

VOLUNTEER EXPERIENCE

Tech For Good - *Facilitator*

September 2021

- Organized tech events and programs as defined by Tech For Good(TFG).
- Attend and represent Tech For Good Seminar.

PROJECT

- I also built a web app password generator, of different length symbols (https://festive-bhaskara-d1c0bb.netlify.app/).
- I built a website containing articles about programming languages, coupled with a questions and answer page which will give you the exact score immediately after the test(https://theprogworld.netlify.app/) .
- Maintained and contributed to consignors and retail web applications.
- Developed a portfolio website for a local artist, incorporating a visually stunning design and seamless navigation.
- I built a selling and buying site for farmers who want to sell their goods or buy goods (https://efarmeruy.000webhostapp.com/E-Farm-Mana/).
- I also built an offline voting system for my department (https://github.com/Peteru2/E-Voting)
